

Dough Divider

Dough Divider cuts the dough at an adjustable weight and desired dough size due to its unique design without compressing and harming the dough.

Weight adjustment can be set up as manually (hand wheel) or via control panel. A wide range of dough weights is available. Cutting speed is possible by means of the digital panel which is variable from 20 to 40 cuts per minute.

The hopper and main body are made of stainless steel which is compatible to food.

Energy Saving

Technical Data

Cutting Capacity (Pieces/Hour)	1800-2000
Cutting Weight (Gr)	50-150 , 100-600 , 200-1000
Hopper Capacity (Kg)	50
Electrical Power (Kw)	1.5
Weight (Kg)	400
