

Dough Rounder

Dough Rounder shapes and rolls the dough by means of rotating cone and also adjustable spiral track. The dough is perfectly rounded while moving from bottom to top in the spiral track.

The standard spiral track is 3 meters and the dough weight range is from 100 gr. to 1,200 gr. It is also possible to produce 50 gr. to 200 gr. The Machine is also designed and equipped with a flour duster which does not make any noise while working.

Technical Data	
Rounding Capacity (Piece / Hour)	1000-2000
Dough Rounding Weight (Gr)	50-350 , 100-700
Capacity of Flour box (Kg)	3
Dimensions (cm)	93x93x162
Height of Dough Entry (cm)	94
Height of Dough Exit (cm)	92
Electrical Power (Kw)	1.1
Weight (kg)	210

Newly developed Belt Rounder is a Band Rounder that is appropriate machine and ideal for rounding easily in a very compact area.

Equipped with two belts at different & opposite speeds for transferring dough.

Technical Data	
Rounding Capacity (Piece / Hour)	1000-2000
Dough Rounding Weight (Gr)	50 - 800
Dimensions (cm)	100x150x80
Electrical Power (Kw)	0.37
Weight (kg)	80
